7951370-3	G	26th January 2023
Surface water strategy statement		26th January 2023

- 1 Reason: To define the scope and extent of this permission.

INFORMATIVES RELATING TO THIS APPLICATION

- 1 Nesting Birds

The active nests of all wild birds are protected under the Wildlife & Countryside Act 1981 (As amended). An active nest is one being built, containing eggs or chicks, or on which fledged chicks are still dependent. All clearance, conversion and demolition work in association with the approved scheme shall be carried out outside of the bird nesting season which runs from March to August inclusive

Note: If it is necessary for work to commence in the nesting season then a pre-commencement inspection of the vegetation and buildings for active bird nests should be carried out and documented. If vegetation cannot be clearly seen to be clear of bird's nests then an experienced ecologist should be called in to carry out the check and document the process. Only if there are no active nests present should work be allowed to commence.

- 2 The developer's attention is drawn to British Standard BS 5837:2012 Trees in relation to design, demolition and construction - Recommendations for information upon effective site management practices to ensure that trees and hedges are not damaged during the construction process.

PLEASE ALSO NOTE THAT THIS PERMISSION IS GRANTED SUBJECT TO DUE COMPLIANCE WITH THE BYE-LAWS AND GENERAL STATUTORY PROVISION IN FORCE IN THE DISTRICT AND DOES **NOT** CONSTITUTE APPROVAL UNDER BUILDING REGULATIONS. YOU ARE ADVISED TO CONTACT THE BUILDING REGULATIONS SECTION IF YOU WISH TO DISCUSS THIS FURTHER

Simon Ellis
Planning Manager
