APPENDIX 10: B & M AUV

867-879 HIGH ROAD, LONDON N17 ADDENDUM TO REVIEW OF 'FINANCIAL VIABILITY STATEMENT'

In December 2019, we reported on the findings of our review of the Applicant's 'Financial Viability Statement' prepared by Quod. The Quod report concluded that the proposed development incorporating 25% affordable housing provided a residual land value of £13.86 million, resulting in a marginal deficit against the benchmark land value of £13.90 million.

Our review concluded that the proposed development can viability provide 35% affordable housing, based on a tenure split of 38% affordable rent and 62% intermediate housing, the latter being disposed of to purchasers with household incomes not exceeding a total of £90,000 per annum. Alternatively, the rented element could be as provided social rent, but this would result in a significantly reduced residual land value of £10.73 million.

In our review, we reduced the benchmark land value from £13.90 million to £9.81 million for the reasons set out at Section 5 of our report.

Changes since our review

The following financial contributions were not included in the Quod's original report and are now reflected in our appraisal:

- Provision of 35% affordable housing (60.5% shared ownership and 39.5% rented.
- The rented element of the affordable housing has been amended from 100% social rent to 50% social rent and 50% London Affordable Rent, which has increased revenue from Quod's original £165 per square foot to £191 per square foot.
- Shared ownership has been modelled so that household incomes required are reduced to £60,000 per annum on a 'cascade' mechanism which allows sales at higher household incomes after an agreed marketing period has elapsed. This reduces revenue from £414 per square foot to £370 per square foot.
- Infrastructure requirements adjusted downwards from £1,044,120 to £926,640 as a result of the removal of the requirement for a public realm contribution of £117,480.
- Carbon off-set payment of £241,926 incorporated in the appraisal (previously £ nil).
- Quod accept have reduced their benchmark land value from £13.90 million to £12.39 million.
- We would also draw the Council's attention to the significant risk associated with the £1.5 million revenue assumed for ground rents in Quod's appraisals. The government has signalled its intentions to introduce legislation to reform residential leaseholds, including requiring freeholders to set peppercorn rents for new leases.

As a result of the changes above, our appraisal generates a residual land value of £9.49 million, which is £0.32 million lower than our benchmark land value of £9.81 million (see Appendix 1). As a consequence of the revisions above, and most notably the Applicant's increase from 25% to 35% affordable housing, the scheme now provides the maximum reasonable proportion of affordable housing.

BNP Paribas Real Estate 28 February 2020

1 INTRODUCTION

- 1.1 This report sets out a "short form viability statement" in accordance with the London Borough of Haringey validation requirements for a planning application.
- 1.2 The scheme proposes 35% affordable housing in line with the Mayors Fast Track Route therefore viability information is not necessary.
- 1.3 It is understood that London Borough of Haringey within their emerging Planning Obligations SPD requires that a short form viability statement is provided in order to provide a benchmark for any subsequent changes and in order for an assessment of deliverability to be made.
- 1.4 It is not anticipated that this information is shared with third parties or in the public domain given commercially confidentiality. Details of the proposed affordable housing are set out in the Affordable Housing Statement which has been submitted as part of the planning application submission.

2 APPLICATION SITE & SCHEME PROPOSALS

a) <u>Application Site</u>

- 2.1 The Site is located in London Borough of Haringey, at 44-52 White Hart Lane and is located to the north of White Hart Lane train station in Tottenham. The total site area is 1.276 ha. The site was previously used as a car breakers yard but is currently used as a construction compound under temporary planning permission which expires in 2019 when the use will return to a car breakers yard. Part of the site comprises Carberry Enterprise Park c.1000 sqm GIA floorspace and the locally listed Station Masters House c.180sqm GIA, which is on White Hart Lane itself.
- 2.2 The Site lies within Site Allocation NT5 "High Road West" of the recently adopted Tottenham Area Action Plan. The allocation supports mixed use development including c.1,200 residential units as well as commercial, town centre and other floorspace across the whole allocation.

b) <u>Scheme Proposals</u>

2.3 The application seeks planning permission for:

"Hybrid Application with matters of layout, scale, appearance, landscaping and access within the site reserved for residential-led mixed use redevelopment to comprise the demolition of existing buildings/structures and associated site clearance and erection of new buildings/structures and basement to provide residential units, employment (B1 Use), retail (A1 Use), leisure (A3 and D2 Uses) and community (D1 Use) uses, with associated access, parking (including basement parking) and servicing space, infrastructure, public realm works and ancillary development. Change of use of No. 52 White Hart Lane (Station Master's House) from C3 use to A3 use."

- 2.4 All matters are reserved accept from access for the site. The illustrative scheme that informs the Parameter Plans comprises 330 residential units as well as employment (B1), shop (A1), food and beverage (A3) and leisure/community (D1/D2) floorspace.
- 2.5 Key elements of the outline planning consent are set out in the table below:

Use (Use Class)	Proposed Maximum Floorspace GEA (m2)
Residential (C3)	Up to 32,000m ² (330 units)
Non-Residential (B1,A1,A3,D1,D2)	1,450m ² At least 400m ² of Employment Floorspace (B1 use) Up to 400m ² retail floorspace (A1 use) and; Within 1,450m ² , no limit on other proposed non-residential floorspaces
Car Parking	Up to 124 spaces Parking ratio of 0.3 Including 4,500m ² covered parking floorspace
Back of House Facilities	2,100m ²

Table 2.1 – Proposed Floorspace (sq.m Gross External Areas – unless otherwise stated

c) <u>Affordable Housing Proposals</u>

- 2.6 The proposal seeks permission for up to 40% affordable housing onsite by habitable room. A minimum of 35% affordable housing by habitable room is proposed to be provided without public subsidy, with a higher quantum of up to 40% being provided subject to receipt of grant funding.
- 2.7 The GLA SPG sets out that the GLA will retain flexibility to meet local needs while ensuring the delivery of their preferred affordable housing products. The proposed mix meets the requirements set out in the Tottenham AAP:
 - 30% low cost rent by habitable room
 - 30% intermediate tenure by habitable room
 - 40% subject to agreement by the LPA to comprise 10% as low cost rent and 30% as intermediate tenure
- 2.8 The final unit mix and location of the affordable housing will be agreed at the reserved matters stage.
- 2.9 The proposed affordability of the intermediate and low cost rent units are set out below in accordance with Haringey Housing Strategy.

- 2.10 The low cost rent units are proposed to be capped at the Local Housing Allowances with the following rent caps proposed:
 - 1 bedroom units up to 80% of local market rent
 - 2 bedroom units up to 65% of local market rent
 - 3 bedroom units up to 55% of local market rent
 - 4 bedroom units up to 45% of local market rent
- 2.11 The intermediate units are proposed to be provided as shared ownership units in line with Haringey's criteria. The units are proposed to be sold at the minimum 25% share of equity and rental on the unsold equity up to 2.75%. In line with the London AMR the income threshold will not exceed £90,000. It is proposed that the focus for these units will be to target incomes of between £30,000 to £70,000, dependent on the unit type.
- 2.12 Full details are set out within the Affordable Housing Statement.

3 VIABILITY STATEMENT

- 3.1 In accordance with planning policy the applicant has undertaken a viability in a residual basis the inputs and assumptions are set out in the section below. The residual approach calculates the value of the proposed development minus the total cost of development, allowing for market level profit having regard to the known characteristics of the property and risks associated with the development.
- 3.2 The area schedule is based on the indicative scheme prepared by F3 architects we have relied upon the floor areas provided.
- 3.3 In preparing our statement we have adopted a policy compliant scheme outlined as follows:
 - 201 private units comprising 58 x 1 beds, 122 x 2 beds, 18 x 3 beds and 7 x 4 beds
 - 46 low cost rent units comprising 6 x 1 beds, 18 x 2 beds, 14 x 3 beds and 8 x 4 beds
 - 83 intermediate units comprising 23 x 1 beds, 51 x 2 beds and 9 x 3 beds
 - 330 total units comprising 83 x 1 beds, 187 x 2 beds, 44 x 3 beds and 9 x 4 beds.
- 3.4 We have tabulated the resultant aggregated GDV for indicative scheme in respect of each tenure

Table 3.1 – Residential Input Assumptions				
Tenure Type	Unit Split	Total GDV	£psf	
Private	201	£121,900,000	£825psf	
Low Cost Rent	46	£7,200,000	£165psf	
Intermediate	83	£21,800,000	£370psf	
Total	330	£150,900,000		

- 3.5 The values are based on current estimates in the market. Affordable Values are in line with LBH affordability criteria set out in section 2.
- 3.6 Non-residential revenue input and assumptions are set out below:

Input	Assumption	Estimated Total Value
Commercial	c.14,821sqft, £25psf rental value, 6.5% yield, 2 years rent free period	£5,000,000
Purchaser Costs	6.8% of commercial	(£425,000)
Car Parking	£20,000 per space	£1,200,000
Indicative Grant Funding	£60,000 per affordable rented units £28,000 per intermediate unit	£5,000,000
Total Non-Residential Revenue	n/a	£10,800,000

Table 3.2 – Non Residential Input Assumptions

- 3.7 Following recent government announcements it is considered reasonable to remove all ground rent revenue from the appraisal following the ban on ground rents on all new build leasehold properties.
- 3.8 Gross Development Value net of purchaser costs is therefore c.£161,800,000.
- 3.9 The following inputs and assumptions have been applied as part of the appraisal rationale:

Appraisal Input	Comment	Estimated Total Cost
Construction Cost	All in build cost estimated to be c.£250psf on a current day basis equating to £95,000,000	£95,000,000
Construction Programme	Total of 30 months estimating 6 months preconstruction and 24 month build	n/a
Contingency	5% cost allowance applied to all build costs	£4,750,000
Professional Fees	10% cost allowance applied to all build costs	£9,500,000
Mayoral/Borough CIL	Based on current estimates and indexation	£1,000,000
Finance Rate	6.5% per annum 100% debt	£8,400,000
Marketing Fees	2% private residential GDV	£2,400,000
Letting Agent and Legal Fees	15% of annualised rent	£55,000

Appraisal Input	Comment	Estimated Total Cost
Sales Agent and Legal Fees	1.5% of total revenue	£2,350,000
Profit	Blended profit threshold of 17.25% profit on GDV	£27,000,000
Acquisition Costs	SDLT, agent and legal fees commensurate to site value	£675,000
Total Costs	n/a	£151,250,000

- 3.10 On the basis of a policy compliant scheme based on the indicative scheme, with no grant funding the scheme derives a RLV of £5,800,000.
- 3.11 If grant funding is achievable on all unit types the RLV of the indicative scheme is c.£10,550,000.However it is currently unknown if grant funding will be able to be secured on all unit types.
- 3.12 On the basis of 35% affordable housing by habitable room and no grant funding the residual land value of the proposed scheme is c.£10,400,000.

4 CONCLUSIONS

- 4.1 The residual valuation is provided to accompany the planning application submission in accordance with the Council's requirements for validation of the application.
- 4.2 The applicant is actively engaging with RPs with a view to be able to provide 40% affordable if grant funding is secured. The 35% affordable housing is provided on the basis of no grant funding this accords with the GLA Viability SPG and draft London Plan. The 35% minimum provision derives a financially equivalent position to the 40% with grant funding proposal.
- 4.3 For schemes with 35% policy compliant mix affordable housing offer with no grant funding submitted without detailed viability submissions a review will be secured prior to implementation an agreed level of progress be made within 24 months.
- 4.4 These figures are based on the indicative scheme and on a current day cost/value basis.
