Thank you for consulting Thames Valley Police on this application. I have consulted with colleagues in traffic management who provide the following response:

At this early stage we have no idea what Speed Limits are likely to be imposed, however on that note I would add;

There is a proven link between road environment/character and drivers speed. Drivers must respect the need for a speed limit. If it is not accepted as realistic it will quickly be abused and be the source of constant demands for police action.

The policy of Thames Valley Police is to use sound practical and realistic criteria (Circular Roads 1/2013) when responding to Highway Authorities in an effort to promote consistency and to reduce the burden of constant and unnecessary enforcement.

I hope you find my comments of assistance, if you require any further information please do not hesitate to contact me.
