(6) When making an application for consent under paragraph (4), Network Rail must notify the street authority of the effect of paragraph (5).

Temporary stopping up of streets

12.—(1) Network Rail, during and for the purposes of the execution of the authorised works, may temporarily stop up, alter or divert any street and may for any reasonable time—

- (a) divert the traffic from the street; and
- (b) subject to paragraph (3), prevent all persons from passing along the street.

(2) Without limitation on the scope of paragraph (1), Network Rail may use any street stopped up under the powers conferred by this article as a temporary working site.

(3) Network Rail must provide reasonable access for pedestrians going to or from premises abutting a street affected by the exercise of the powers conferred by this article if there would otherwise be no such access.

(4) Without limitation on the scope of paragraph (1), Network Rail may exercise the powers conferred by this article in relation to the streets specified in columns (1) and (2) of Schedule 6

(streets to be temporarily stopped up) to the extent specified in column (3) of that Schedule or such streets as may otherwise fall within the Order Limits.

(5) Network Rail must not exercise the powers conferred by this article—

- (a) in relation to any street specified as mentioned in paragraph (4) without first consulting the street authority; and
- (b) in relation to any other street without the consent of the street authority which may attach reasonable conditions to any consent, but such consent must not be unreasonably withheld.

(6) Any person who suffers loss by the suspension of any private right of way under this article is entitled to compensation to be determined, in case of dispute, as if it were a dispute under Part 1 of the 1961 Act.

(7) If within 28 days of receiving an application for consent under paragraph (5)(b) a street authority fails to notify Network Rail of its decision or refuses consent without giving any grounds for its refusal that street authority is deemed to have granted consent.

(8) When making an application for consent under paragraph (5)(b), Network Rail must notify the street authority of the effect of paragraph (7).

Access to works

13.—(1) Network Rail may, for the purposes of the authorised works—

- (a) form and lay out means of access, or improve existing means of access, in the locations specified in columns (1) and (2) of Schedule 7 (access to works) at or about the points marked “A” on the deposited plans ; and
- (b) with the approval of the highway authority, form and lay out such other means of access, or improve existing means of access, at such locations within the Order limits as Network Rail reasonably requires for the purposes of the authorised works.

(2) If a highway authority fails to notify Network Rail of its decision within 28 days of receiving an application for approval, under paragraph (1)(b), the highway authority is deemed to have granted approval.

(3) When making an application for approval under paragraph (1)(b), Network Rail must notify the highway authority of the effect of paragraph (2).

Construction and maintenance of new or altered streets

14.—(1) Any street to be constructed under this Order must be completed to the reasonable satisfaction of the highway authority and, unless otherwise agreed in writing between Network Rail and the highway authority, must be maintained by and at the expense of Network Rail for a period of 12 months from its completion and at the expiry of that period by and at the expense of the highway authority.

(2) Where a street is altered or diverted under this Order, the altered or diverted part of the street must, when completed to the reasonable satisfaction of the street authority, unless otherwise agreed in writing between Network Rail and the street authority, be maintained by and at the expense of Network Rail for a period of 12 months from its completion and from the expiry of that period by and at the expense of the street authority.

(3) Paragraphs (1) and (2) do not apply in relation to the structure of any bridge or tunnel carrying a street over or under any railway of Network Rail and except as provided in those paragraphs Network Rail is not liable to maintain the surface of any street under or over which the scheduled works are constructed, or the immediate approaches to any street.

(4) In any action against Network Rail in respect of loss or damage resulting from any failure by it to maintain a street under this article, it is a defence (without affecting any other defence or the application of the law relating to contributory negligence) to prove that Network Rail had taken such care as in all the circumstances was reasonably required to secure that the part of the street to which the action relates was not dangerous to traffic.

(5) For the purposes of a defence under paragraph (4), the court must in particular have regard to the following matters—

- (a) the character of the street and the traffic which was reasonably to be expected to use it;
- (b) the standard of maintenance appropriate for a street of that character and used by such traffic;
- (c) the state of repair in which a reasonable person would have expected to find the street;
- (d) whether Network Rail knew, or could reasonably have been expected to know, that the condition of the part of the street to which the action relates was likely to cause danger to users of the street; and
- (e) where Network Rail could not reasonably have been expected to repair that part of the street before the cause of action arose, what warning notices of its condition had been displayed,

but for the purposes of such a defence it is not relevant to prove that Network Rail had arranged for a competent person to carry out or supervise the maintenance of the part of the street to which the action relates unless it is also proved that Network Rail had given the competent person proper instructions with regard to the maintenance of the street and that the competent person had carried out those instructions.

Construction of bridges

15.—(1) Any bridge to be constructed under this Order for carrying a highway over or under a railway must be constructed in accordance with the plans and specifications approved by the highway authority, but such approval is not to be unreasonably withheld.

(2) If within 28 days of receiving an application for approval under paragraph (1) a highway authority fails to notify Network Rail of its decision or refuses approval without giving any grounds for its refusal that highway authority is deemed to have granted approval.

(3) When making an application for approval under paragraph (1), Network Rail must notify the highway authority of the effect of paragraph (2).

Agreements with street authorities

16.—(1) A street authority and Network Rail may enter into agreements with respect to—

- (a) the construction of any new street (including any structure carrying the street over or under a railway) under the powers conferred by this Order;
- (b) the strengthening, improvement, repair or reconstruction of any street under the powers conferred by this Order;
- (c) the maintenance of the structure of any bridge constructed under the powers conferred by this Order;
- (d) any stopping up, alteration or diversion of a street under the powers conferred by this Order; or
- (e) the execution in the street of any of the works referred to in article 9(1) (power to execute street works).

(2) Such an agreement may, without limitation on the scope of paragraph (1)—

- (a) make provision for the street authority to carry out any function under this Order which relates to the street in question; and
- (b) contain such terms as to payment and otherwise as the parties consider appropriate.

Level Crossings

Replacement and closure of level crossings

17.—(1) Subject to paragraph (3), each of the level crossings specified in column (2) of Schedule 8 (replacement and closure level crossings) are stopped up and discontinued.

(2) Subject to paragraph (3) and paragraph (2) of Schedule 14 (provisions relating to statutory undertakers etc.), upon the stopping up and discontinuance of a level crossing referred to in paragraph (1), any right of way (whether public or private) over the part of the level crossing specified in relation to it in column (3) of Schedule 8 is extinguished.

(3) Paragraphs (1) and (2) are not to take effect with respect to a footpath or bridleway specified in columns (2) and (3) of Schedule 8 until the replacement right of way specified in relation to it in column (4) of that Part of that Schedule has been provided to the reasonable satisfaction of the street authority and is open for use.

(4) On completion of the construction of the replacement right of way specified in column (4) of Schedule 8 Network Rail must submit a written request to the street authority for written confirmation that the replacement right of way has been provided to the reasonable satisfaction of the authority, and can be opened for use, and such confirmation must not be unreasonably withheld and must be given within 28 days of the street authority receiving a request under this paragraph.

(5) If the street authority fails to notify Network Rail in writing of a decision by the expiry of 28 days from receiving the request, the street authority is deemed to have provided confirmation.

(6) When making a request for confirmation under paragraph (4), Network Rail must notify the street authority of the effect of paragraph (4).

(7) If the street authority notifies Network Rail that confirmation cannot be provided under paragraph (4), the matter is to be determined in accordance with article 52 (arbitration).

(8) In providing the replacement right of way specified in column (4) of Schedule 8, Network Rail may within the Order limits erect barriers and signs and carry out or provide any ancillary works or conveniences, subject to the agreement of the highway authority which agreement must not be unreasonably withheld.

(9) Any person who suffers loss by the extinguishment of any private right of way under this article is entitled to compensation to be determined, in case of dispute, as if it were a dispute under Part 1 of the 1961 Act.

(10) Any replacement footpath or bridleway specified in column (4) of Schedule 8 provided under this Order is to be a public footpath or bridleway and, subject to paragraphs (11) to (12), in relation to that replacement right of way, section 28(a) (compensation for loss caused by public path creation order) of the 1980 Act applies as if the replacement right of way had been created by a public path creation order.

(11) In its application by virtue of paragraph (10), section 28 of the 1980 Act has effect with the modifications mentioned in paragraphs (12) to (14).

(12) In subsection (1), for the words “the authority by whom the order was made” there are substituted the words “Network Rail Infrastructure Limited”.

(13) For subsection (2), substitute—

“(2) A claim for compensation under this section is to be made to Network Rail Infrastructure Limited in writing before the end of the period of 6 months beginning with the day on which the public right of way first becomes exercisable and is to be served on Network Rail Infrastructure Limited by delivering it at, or by sending it by pre-paid post to, the registered office of Network Rail Infrastructure Limited.”

(14) Omit subsection (3).

(15) For the purposes of paragraphs (10) to (14), in section 307(2) (disputes as to compensation which are to be determined by Upper Tribunal and related provisions) of the 1980 Act, as it applies to section 28 of the 1980 Act by virtue of section 307(1), for “the authority from whom the compensation in question is claimed” substitute “Network Rail Infrastructure Limited”.

(a) Section 28 was amended by S.I. 2006/1177.

Accommodation crossings

18.—(1) Subject to paragraph (2) and regardless of anything in section 68 (accommodation works by the Company) of the Railways Clauses Consolidation Act 1845 **(a)** as incorporated in the Leeds and Selby Railway Act 1830 or any other enactment or instrument, all public or private rights of way (if any) across the railway by means of the accommodation facilities specified in columns (2) and (3) of Parts 1 and 2 Schedule 9 (accommodation crossings), are extinguished.

(2) Paragraph (1) does not take effect with respect to the extinguishment of the private rights of way by means of an accommodation facility specified in columns (2) and (3) of Part 1 (accommodation crossings for which a substitute is to be provided) of Schedule 9 until the accommodation facility specified in relation to it in column (4) of Part 1 of that Schedule has been provided.

(3) Any person who suffers loss by the extinguishment of any private right of way under this article is entitled to compensation to be determined, in case of dispute, as if it were a dispute under Part 1 of the 1961 Act.

Supplemental powers

Discharge of water

19.—(1) Subject to paragraphs (3) and (4) Network Rail may use any watercourse or any public sewer or drain for the drainage of water in connection with the construction, operation or maintenance of the authorised works and for that purpose may lay down, take up and alter pipes and may, on any land within the Order limits, make openings into, and connections with, the watercourse, public sewer or drain.

(2) Any dispute arising from the exercise of the powers in paragraph (1) to connect to or use a public sewer or drain is to be determined as if it were a dispute under section 106 (right to communicate with public sewers) of the Water Industry Act 1991**(b)**.

(3) Network Rail must not discharge any water into any watercourse, public sewer or drain except with the consent of the person to whom it belongs; and such consent may be given subject to such terms and conditions as that person may reasonably impose, but must not be unreasonably withheld.

(4) Network Rail must not make any opening into any public sewer or drain except—

- (a) in accordance with plans approved by the person to whom the sewer or drain belongs, but such approval must not be unreasonably withheld; and
- (b) where that person has been given the opportunity to supervise the making of the opening.

(5) Network Rail must not, in the exercise of the powers conferred by this article, damage or interfere with the bed or banks of any watercourse forming part of a main river.

(6) Network Rail must take such steps as are reasonably practicable to secure that any water discharged into a watercourse or public sewer or drain under the powers conferred by this article is as free as may be practicable from gravel, soil or other solid substance, oil or matter in suspension.

(7) Nothing in this article overrides the requirement for an environmental permit under regulation 12(1)(b) (requirement for environmental permit) of the 2016 Regulations**(c)**.

(8) If a person who receives an application for consent or approval fails to notify Network Rail of a decision within 28 days of receiving an application for consent under paragraph (3) or an application for approval under paragraph (4)(a) that person is deemed to have granted consent or given approval, as the case may be.

(a) 1845 (8 & 9 Vict.) c.cv.

(b) 1991 c.56. Section 106 was amended by sections 35(1), 35(8) and 43(2) of, and Schedule 2 to, the Competition and Service (Utilities) Act 1992 (c. 43), sections 36(2) and 99 of the Water Act 2003 (c. 37) and paragraph 16(1) of Schedule 3 to the Flood and Water Management Act 2010 (c. 29).

(c) S.I. 2016/1154 was amended by S.I. 2018/110.

(9) Where an application for consent or approval is made under paragraph (3) or paragraph (4)(b), Network Rail must notify that person of the effect of paragraph (8).

(10) In this article—

- (a) “public sewer or drain” means a sewer or drain which belongs to a sewerage undertaker, Environment Agency, an internal drainage board or a local authority; and
- (b) other expressions, excluding watercourses, used both in this article and in the Water Resources Act 1991^(a) have the same meaning as in that Act.

Protective works to buildings, roads and apparatus of a statutory undertaker

20.—(1) Subject to the following provisions of this article, Network Rail may at its own expense carry out such protective works to—

- (a) any building; or
- (b) any road; or
- (c) any apparatus of a statutory undertaker,

lying within the Order limits or the Protective Works limits as Network Rail considers to be necessary or expedient.

(2) Protective works may be carried out—

- (a) at any time before or during the construction in the vicinity of the building, road or apparatus of any part of the authorised works; or
- (b) after the completion of the construction of that part of the authorised works in the vicinity of the building, road or apparatus at any time up to the end of the period of 5 years beginning with the day on which that part of the authorised works is first opened for use.

(3) For the purpose of determining how the functions under this article are to be exercised Network Rail may (subject to paragraph (5)) enter and survey any building, go onto and survey, any road or access and survey any apparatus falling within paragraph (1) and any land within the curtilage of the building or in which the apparatus is located.

(4) For the purpose of carrying out protective works under this article to a building, road or apparatus Network Rail may (subject to paragraphs (5) and (6))—

- (a) enter the building, go onto the road or access the apparatus and any land within the curtilage of the building or in which the apparatus is located; and
- (b) where the works cannot be carried out reasonably conveniently without entering land which is adjacent to the building (but outside its curtilage) or adjacent to the road or land in which the apparatus is located, enter the adjacent land (but not any building erected on it).

(5) Before exercising—

- (a) a right under paragraph (1) to carry out protective works to a building, road or apparatus;
- (b) a right under paragraph (3) to enter a building, go onto a road or access apparatus and land within the curtilage of the building or in which the apparatus is located;
- (c) a right under paragraph (4)(a) to enter a building, go onto a road or access apparatus and land within the curtilage of the building or in which the apparatus is located; or
- (d) a right under paragraph (4)(b) to enter land,

Network Rail must, except in the case of emergency, serve on the owners and occupiers of the building or land or the owner of the road or apparatus not less than 14 days’ notice of its intention to exercise that right and, in a case falling within sub-paragraph (a) or (c), specifying the protective works proposed to be carried out.

(a) 1991 c. 57.

(6) Where a notice is served under paragraph (5)(a), (c) or (d), the owner or occupier of the building or land or the owner of the road or apparatus concerned may, by serving a counter-notice within the period of 10 days beginning with the day on which the notice was served, require the question whether it is necessary or expedient to carry out the protective works or to enter the building or land to be referred to arbitration under article 52 (arbitration).

(7) Network Rail must compensate the owners and occupiers of any building or land or the owner of the road or apparatus in relation to which the powers conferred by this article have been exercised for any loss or damage arising to them by reason of the exercise of those powers.

(8) Where—

- (a) protective works are carried out under this article to a building, road or apparatus falling within paragraph (1); and
- (b) within the period of 5 years beginning with the day on which the part of the authorised works constructed in the vicinity of the building, road or apparatus is first opened for use it appears that the protective works are inadequate to protect the building, road or apparatus against damage caused by the construction or operation of that part of the authorised works,

Network Rail must compensate the owners and occupiers of the building, road or apparatus for any loss or damage sustained by them.

(9) Without affecting article 51 (no double recovery) nothing in this article relieves Network Rail from any liability to pay compensation under section 10(2)(a) of the 1965 Act.

(10) Any compensation payable under paragraph (7) or (8) is to be determined, in case of dispute, as if it were a dispute under Part 1 of the 1961 Act.

(11) In this article—

“protective works” in relation to a building, road or apparatus means—

- (a) underpinning, strengthening and any other works the purpose of which is to prevent damage which may be caused to the building, road or apparatus by the construction, maintenance or operation of the authorised works;
- (b) any works the purpose of which is to remedy any damage which has been caused to the building, road or apparatus by the construction, maintenance or operation of the authorised works; and
- (c) any works the purpose of which is to secure the safe operation of the authorised works or to prevent or minimise the risk of such operation being disrupted;

“road” includes any structure supporting the road.

Power to survey and investigate land

21.—(1) Network Rail may for the purposes of this Order—

- (a) survey or investigate any land shown within the Order limits;
- (b) without limitation on the scope of sub-paragraph (a), make excavations, trial holes and boreholes in such positions on the land as Network Rail thinks fit to investigate the nature of the surface layer and subsoil and remove soil samples;
- (c) without limitation on the scope of sub-paragraph (a), carry out ecological or archaeological investigations on such land;
- (d) place on, leave on and remove from the land apparatus for use in connection with the survey and investigation of land and making of trial holes or boreholes; and
- (e) enter on the land for the purpose of exercising the powers conferred by sub-paragraphs (a) to (d).

(a) Section 10 was amended by section 4 of, and paragraph 13(2) of Schedule 2 to, the Planning (Consequential Provisions) Act 1990 (c. 11) and S.I. 2009/1307.

(2) No land may be entered or equipment placed or left on or removed from the land under paragraph (1), unless at least 7 days' notice has been served on every owner and occupier of the land.

(3) Notice given in accordance with paragraph (2) must include—

- (a) a statement of the recipient's rights under paragraph (15); and
- (b) a copy of any warrant issued under paragraph (7).

- (c) taking samples;
- (d) an aerial survey;
- (e) carrying out any other activities that may be required to facilitate compliance with the Conservation of Habitats and Species Regulations 2017(a).

(5) If Network Rail obtains a warrant after giving notice in accordance with paragraph (2) it must give a copy of the warrant to all those to whom it gave that notice.

(6) Any person entering land under this article on behalf of Network Rail—

- (a) must, if so required, before or after entering the land produce written evidence of authority to do so including any warrant issued under paragraph (8);

- (c) may take onto the land such vehicles and equipment as are necessary to carry out the survey or investigation or to make the trial holes;
- (d) may only enter and survey at a reasonable time; and
- (e) must, if the land is unoccupied or the occupier is absent from the land when the person enters it, leave it as secure against trespassers as when the person entered it.

(7) A justice of the peace may issue a warrant authorising a person to use force in the exercise of the power conferred by this article if satisfied—

- (a) that another person has prevented or is likely to prevent the exercise of that power; and
- (b) that it is reasonable to use force in the exercise of that power.

(8) The force that may be authorised by a warrant is limited to that which is reasonably necessary.

(9) A warrant authorising the person to use force must specify the number of occasions on which Network Rail can rely on the warrant when entering and surveying or valuing land.

(10) The number specified must be the number which the justice of the peace considers appropriate to achieve the purpose for which the entry and survey or valuation are required.

(11) Any evidence in proceedings for a warrant under this article must be given on oath.

(12) No trial holes are to be made under this article—

- (a) in a carriageway or footway without the consent of the highway authority; or
- (b) in a private street without the consent of the street authority,

but such consent must not be unreasonably withheld.

(13) If either a highway authority or a street authority which receives an application for consent fails to notify Network Rail of its decision within 14 days of receiving the application for consent—

- (a) under paragraph (12)(a) in the case of a highway authority; or

(a) S.I. 2017/1012

(b) under paragraph (12)(b) in the case of a street authority,
that authority is deemed to have granted consent.

(14) Where an application for consent is made under paragraph (12)(a) or paragraph (12)(b), Network Rail must notify that authority of the effect of paragraph (13).

(15) Network Rail must compensate the owners and occupiers of the land for any loss or damage arising by reason of the exercise of the powers conferred by this article, such compensation to be determined, in case of dispute, as if it were a dispute under Part 1 of the 1961 Act.

(16) Nothing in this article overrides the need to obtain scheduled monument consent under the Ancient Monuments and Archaeological Areas Act 1979(a).

PART 3

(2) In paragraph (1) “relevant land” means the land acquired from the person concerned or any other land with which that person is, or was at the time when the building was erected, the works executed or the improvement or alteration made, directly or indirectly concerned.

(3) Subject to the provisions of this article, all private rights of way over land subject to the compulsory acquisition of rights or the imposition of restrictive or other covenants under this Order are extinguished in so far as their continuance would be inconsistent with the exercise of the right or the burden of the restrictive or other covenant—

- (a) as from the date of the acquisition of the right or the imposition of the restrictive or other covenant by Network Rail, whether compulsorily or by agreement; or
- (b) on the date of entry on the land by Network Rail under section 11(1) of the 1965 Act in pursuance of the right or enforcement of the restrictive or other covenant,

(10) If Network Rail is satisfied that any person giving notice under paragraph (5) is the personal representative or relative as that person claims to be and that the remains in question can be identified, but that person does not remove the remains, Network Rail must comply with any reasonable request that person may make in relation to the removal and re-interment or cremation of the remains.

(11) On the re-interment or cremation of any remains under this article—

- (b) the acquiring authority is subsequently required by a determination under paragraph 12 of Schedule 2A to the 1965 Act (as substituted by paragraph 5(8) of Schedule 11 to the 20[XX] Order) to acquire an interest in the land; and

the authority is deemed for the purposes of subsection (3)(a) to have entered on that land when it entered on that land for the purpose of exercising that right or enforcing that covenant.”.

3.—(1) Without limitation on the scope of paragraph 1, the Land Compensation Act 1973(a) has effect subject to the modifications set out in sub-paragraph (2).

(a) 1973 c. 26.

(2) In section 44(1) (compensation for injurious affection), as it applies to compensation for injurious affection under section 7 (measure of compensation in case of severance) of the 1965 Act as substituted by paragraph 5(3)—

- (a) for the words “land is acquired or taken from” substitute “a right over land is purchased”; and
- (b) for the words “acquired or taken from him” substitute “over which the right is exercisable”.

Application of Part 1 of the 1965 Act

4. Part 1 (compulsory purchase under Acquisition of Land Act 1946) of the 1965 Act, as applied by article 23 (application of Part 1 of the 1965 Act) to the acquisition of land under article 22 (power to acquire land), applies to the compulsory acquisition of a right by the creation of a new right under article 25(1), 25(2) or 25(3) (power to acquire new rights)—

- (a) with the modification specified in paragraph 5; and
- (b) with such other modifications as may be necessary.

5.—(1) The modifications referred to in paragraph 4(a) are as follows.

(2) References in the 1965 Act to land are, in the appropriate contexts, to be read (according to the requirements of the particular context) as referring to, or as including references to—

- (a) the right acquired or to be acquired; or
- (b) the land over which the right is or is to be exercisable.

(3) For section 7 (measure of compensation in the case of severance) of the 1965 Act substitute—

“7. In assessing the compensation to be paid by the acquiring authority under this Act regard must be had not only to the extent (if any) to which the value of the land over which the right is to be acquired is depreciated by the acquisition of the right, but also to the damage (if any) to be sustained by the owner of the land by reason of its severance from other land of the owner, or injuriously affecting that other land by the exercise of the powers conferred by this or the special Act.”.

(4) The following provisions of the 1965 Act (which state the effect of a deed poll executed in various circumstances where there is no conveyance by persons with interests in the land), that is to say—

- (a) section 9(4) (failure by owners to convey);
- (b) paragraph 10(3) of Schedule 1 (owners under incapacity);
- (c) paragraph 2(3) of Schedule 2 (absent and untraced owners); and
- (d) paragraphs 2(3) and 7(2) of Schedule 4 (common land),

are modified so as to secure that, as against persons with interests in the land which are expressed to be overridden by the deed, the right which is to be compulsorily acquired is vested absolutely in the acquiring authority.

(5) Section 11(a) (powers of entry) of the 1965 Act is modified so as to secure that, where the acquiring authority has served notice to treat in respect of any right or restriction, as well as the notice of entry required by subsection (1) of that section (as it applies to a compulsory acquisition under article 22, it has power, exercisable in the equivalent circumstances and subject to the equivalent conditions, to enter for the purpose of exercising that right; and sections 11A(b) (powers of entry: further notices of entry), 11B(c) (counter-notice requiring possession to be taken

(b) Section 11A was inserted by section 186(3) of the Housing and Planning Act 2016.

(c) Section 11B was inserted by section 187(2) of the Housing and Planning Act 2016.

(6) Section 20(c) (tenants at will etc.) of the 1965 Act applies with the modifications necessary to secure that persons with such interests in land as are mentioned in that section are compensated in a manner corresponding to that in which they would be compensated on a compulsory acquisition under this Order of that land, but taking into account only the extent (if any) of such interference with such an interest as is actually caused, or likely to be caused, by the exercise of the right in question.

(7) Section 22 (interests omitted from purchase) of the 1965 Act (as modified by article 23(7) is modified so as to enable the acquiring authority, in circumstances corresponding to those referred to in that section, to continue to be entitled to exercise the right acquired subject to compliance with that section as respects compensation.

(8) For Schedule 2A to the 1965 Act substitute—

“SCHEDULE 2A COUNTER-NOTICE REQUIRING PURCHASE OF LAND

- (c) if the right is proposed to be acquired for works or other purposes extending to other land, the effect of the whole of the works and the use of the other land.

12. If the Upper Tribunal determines that the acquisition of the right would have either of the consequences described in paragraph 10, it must determine how much of the house, building or factory the acquiring authority ought to be required to take.

13. If the Upper Tribunal determines that the acquiring authority ought to be required to take some or all of the house, building or factory, the compulsory purchase order and the notice to treat are to have effect as if they included the owner's interest in that land.

SCHEDULE 14

PROVISIONS RELATING TO STATUTORY UNDERTAKERS ETC.

Article 10, 17, and 47

Apparatus of statutory undertakers etc. on land acquired

1.—(1) Sections 271 to 274(a) (extinguishment of rights of statutory undertakers etc. and power of statutory undertakers etc. to remove or re-site apparatus) of the 1990 Act apply in relation to any land acquired or appropriated by Network Rail under this Order subject to the following provisions of this paragraph; and all such other provisions of that Act as apply for the purposes of those provisions (including sections 275 to 278, which contain provisions consequential on the extinguishment of any rights under sections 271 and 272, and sections 279(2) to (4), 280 and 282(b), which provide for the payment of compensation) have effect accordingly.

(2) In the provisions of the 1990 Act, as applied by sub-paragraph (1), references to the appropriate Minister are references to the Secretary of State.

(3) Where any apparatus of public utility undertakers or of a public communications provider is removed in pursuance of a notice or order given or made under section 271, 272 or 273 of the 1990 Act, as applied by sub-paragraph (1), any person who is the owner or occupier of premises to which a supply was given from that apparatus is entitled to recover from Network Rail compensation in respect of expenditure reasonably incurred by that person, in consequence of the removal, for the purpose of effecting a connection between the premises and any other apparatus from which a supply is given.

(4) Sub-paragraph (3) does not apply in the case of the removal of a public sewer but where such a sewer is removed in pursuance of such a notice or order as is mentioned in that paragraph, any person who is—

(a) Sections 272 to 274 were amended by paragraph 103(1) and (2) of Schedule 17 to the Communications Act 2003 (c. 21).

(b) Section 279(3) was amended by paragraphs 103(1) and (2), and section 280 was amended by paragraph 104, of Schedule 17 to the Communications Act 2003. Sections 280 and 282 were amended by S.I. 2009/1307.

- (a) the owner or occupier of premises the drains of which communicated with that sewer; or
- (b) the owner of a private sewer which communicated with that sewer,

is entitled to recover from Network Rail compensation in respect of expenditure reasonably incurred by that person, in consequence of the removal, for the purpose of making the drain or sewer communicate with any other public sewer or with a private sewerage disposal plant.

(5) The provisions of the 1990 Act mentioned in sub-paragraph (1), as applied by that paragraph, do not have effect in relation to apparatus as respects which sub-paragraph (2) or Part 3 of the 1991 Act applies.

(6) Nothing in this paragraph affects the provisions of any enactment or agreement regulating the relations between Network Rail and an undertaker in respect of any apparatus laid or erected in land belonging to Network Rail on the date on which the Order is made.

(7) In this paragraph—

“public communications provider” has the same meaning as in section 151(1) of the Communications Act 2003^(a); and

“public utility undertaker” has the same meaning as in the 1980 Act^(b).

Apparatus of statutory undertakers etc. in stopped up streets

2.—(1) Where a street is stopped up under article 10 (stopping up of streets), or article 17 (replacement and closure of level crossings) any statutory utility whose apparatus is under, in, upon, along or across the street has the same powers and rights in respect of that apparatus, subject to the provisions of this paragraph, as if this Order had not been made.

(2) Where a street is stopped up under articles 10, 12, 20 any statutory utility whose apparatus is under, in, upon, over, along or across the street may, and if reasonably requested to do so by Network Rail must—

- (a) remove the apparatus and place it or other apparatus provided in substitution for it in such other position as the statutory utility may reasonably determine and have power to place it; or
- (b) provide other apparatus in substitution for the existing apparatus and place it in that other position.

(3) Subject to the following provisions of this paragraph, Network Rail must pay to any statutory utility an amount equal to the cost reasonably incurred by the statutory utility in or in connection with—

- (a) the execution of the relocation works required in consequence of the stopping up of the street; and
- (b) the doing of any other work or thing rendered necessary by the execution of the relocation works.

(4) If in the course of the execution of relocation works under sub-paragraph (2)—

- (a) apparatus of a better type, of greater capacity or of greater dimensions is placed in substitution for existing apparatus; or
- (b) apparatus (whether existing apparatus or apparatus substituted for existing apparatus) is placed at a depth greater than the depth at which the existing apparatus was,

and the placing of apparatus of that type or capacity or of those dimensions or the placing of apparatus at that depth, as the case may be, is not agreed by Network Rail, or, in default of agreement, is not determined by arbitration pursuant to article 52 (arbitration) to be necessary, then, if it involves cost in the execution of the relocation works exceeding that which would have been involved if the apparatus placed had been of the existing type, capacity or dimensions, or at the existing depth, as the case may be, the amount which apart from this paragraph would be

^(a) 2003 c. 21.

^(b) The definition of “public utility undertakers” was amended by section 190(3) of, and part 1 of Schedule 27 to, the Water Act 1989 (c.15) and section 112(4) of, and Schedule 18 to, the Electricity Act 1989 (c. 29).

payable to the statutory utility by virtue of sub-paragraph (3) is to be reduced by the amount of that excess.

(5) For the purposes of sub-paragraph (4)—

- (a) an extension of apparatus to a length greater than the length of existing apparatus is not to be treated as a placing of apparatus of greater dimensions than those of the existing apparatus; and
- (b) where the provision of a joint in a cable is agreed, or is determined to be necessary, the consequential provision of a jointing chamber or of a manhole is to be treated as if it also had been agreed or had been so determined.

(6) An amount which apart from this sub-paragraph would be payable to a statutory utility in respect of works by virtue of sub-paragraph (3) (and having regard, where relevant, to sub-paragraph (4)) must, if the works include the placing of apparatus provided in substitution for apparatus placed more than 7 years and 6 months earlier so as to confer on the statutory utility any financial benefit by deferment of the time for renewal of the apparatus in the ordinary course, be reduced by the amount which represents that benefit.

(7) Sub-paragraphs (3) to (6) do not apply where the authorised works constitute major transport works for the purposes of Part 3 (street works in England and Wales) of the 1991 Act, but instead—

- (a) the allowable costs of the relocation works are to be determined in accordance with section 85 (sharing of cost of necessary measures) of that Act and any regulations for the time being having effect under that section; and
- (b) the allowable costs are to be borne by Network Rail and the statutory utility in such proportions as may be prescribed by any such regulations.

(8) Nothing in this paragraph affects the provisions of any enactment or agreement regulating the relations between Network Rail and a statutory utility in respect of any apparatus laid or erected in land belonging to Network Rail on the date on which the Order is made.

(9) In this paragraph—

- (a) “apparatus” has the same meaning as in Part 3 of the 1991 Act;
- (b) “relocation works” means work executed, or apparatus provided, under sub-paragraph (2); and
- (c) “statutory utility” means a statutory undertaker for the purposes of the 1980 Act or a public communications provider as defined in paragraph 1(7).

Railway and navigation undertakings

3.—(1) Subject to the following provisions of this paragraph, the powers under article 9 (power to execute street works) to break up or open a street are not exercisable where the street, not being a highway maintainable at public expense (within the meaning of the 1980 Act) is under the control or management of, or is maintainable by, railway undertakers or a navigation authority except with the consent of the undertakers or authority.

(2) Sub-paragraph (1) does not apply to the carrying out under this Order of emergency works, within the meaning of Part 3 of the 1991 Act.

(3) A consent given for the purpose of sub-paragraph (1) may be made subject to such reasonable conditions as may be specified by the person giving it but must not be unreasonably withheld.

(4) In this paragraph “navigation authority” means any person who has a duty or power under any enactment to work, maintain, conserve, improve or control any canal or other inland navigation, navigable river, estuary, harbour or dock.

(5) Nothing in this paragraph affects the provision of any enactment or agreement regulating the relations between Network Rail and a railway undertaker or a navigation authority in respect of any street to which sub-paragraph (1) applies which have effect on the date on which this Order is made.

5. Without affecting any provision in this Order or anything shown on the deposited plans Network Rail must not acquire any apparatus other than by agreement.

6.—(1) If, in the exercise of the powers conferred by this Order, Network Rail acquires any interest in any land in which any apparatus is placed, that apparatus must not be removed under this Part of this Schedule and any right of an undertaker to maintain that apparatus in that land must not be extinguished until alternative apparatus has been constructed and is in operation to the reasonable satisfaction of the undertaker in question.

(2) If, for the purpose of executing any works in, on or under any land purchased, held, appropriated or used under this Order, Network Rail requires the removal of any apparatus placed in that land, it must give to the undertaker in question written notice of that requirement, together with a plan and section of the work proposed, and of the proposed position of the alternative apparatus to be provided or constructed.

(3) Any alternative apparatus to be constructed in land of Network Rail under this Part of this Schedule must be constructed in such manner and in such line or situation as may be agreed between the undertaker in question and Network Rail within 21 days of the service of a notice under sub-paragraph (2) or in default of agreement settled by arbitration in accordance with article 52 (arbitration)

(5) If alternative apparatus or any part of such apparatus is to be constructed elsewhere than in other land of Network Rail, or Network Rail is unable to afford such facilities and rights as are mentioned in sub-paragraph (4) in the land in which the alternative apparatus or part of such apparatus is to be constructed, the undertaker in question must, on receipt of a written notice to that effect from Network Rail, as soon as reasonably possible use its best endeavours to obtain the necessary facilities and rights in the land in which the alternative apparatus is to be constructed.

(6) The undertaker in question must, after the alternative apparatus to be provided or constructed has been agreed or settled by arbitration in accordance with article 52 (arbitration), and after the grant to the undertaker of any such facilities and rights as are referred to in sub-paragraph (4) or (5), proceed without unnecessary delay to construct and bring into operation the alternative apparatus and subsequently to remove any apparatus required by Network Rail to be removed under the provisions of this Part of this Schedule.

(7) Without affecting anything in sub-paragraph (6), if Network Rail gives notice in writing to the undertaker in question that it desires itself to execute any work to which this sub-paragraph applies, that work, instead of being executed by the undertaker, must be executed by Network Rail without unnecessary delay under the superintendence, if given, and to the reasonable satisfaction of the undertaker.

(8) Sub-paragraph (7) applies to any part of any work necessary in connection with construction of alternative apparatus, or the removal of apparatus required to be removed, as will take place in any land of Network Rail.

(9) Nothing in sub-paragraph (7) authorises Network Rail to execute the placing, installation, bedding, packing, removal, connection or disconnection of any apparatus, or execute any filling around the apparatus (where the apparatus is laid in a trench) within 300 millimetres of the apparatus.

7.—(1) Where, in accordance with the provisions of this Part of this Schedule, Network Rail affords to an undertaker facilities and rights for the construction and maintenance in land of Network Rail of alternative apparatus in substitution for apparatus to be removed, those facilities and rights are to be granted upon such terms and conditions as may be agreed between Network Rail and the undertaker in question or in default of agreement settled by arbitration in accordance with article 52 (arbitration).

(2) In settling those terms and conditions in respect of the alternative apparatus to be constructed in or along any railway of Network Rail, the arbitrator must—

- (a) give effect to all reasonable requirements of Network Rail for ensuring the safety and efficient operation of the railway and for securing any subsequent alterations or adaptations of the alternative apparatus which may be required to prevent interference with any proposed works of Network Rail or the traffic on the railway; and
- (b) so far as it may be reasonable and practicable to do so in the circumstances of the particular case, give effect to the terms and conditions, if any, applicable to the apparatus constructed in or along the railway for which the alternative apparatus is to be substituted.

(3) If the facilities and rights to be afforded by Network Rail in respect of any alternative apparatus, and the terms and conditions subject to which those facilities and rights are to be granted, are in the opinion of the arbitrator less favourable on the whole to the undertaker in question than the facilities and rights enjoyed by it in respect of the apparatus to be removed and the terms and conditions to which those facilities and rights are subject, the arbitrator must make such provision for the payment of compensation by Network Rail to that undertaker as appears to the arbitrator to be reasonable having regard to all the circumstances of the particular case.

8.—(1) Not less than 28 days before starting the execution of any of the authorised works that are near to, or will or may affect, any apparatus the removal of which has not been required by Network Rail under paragraph 6(2), Network Rail must submit to the undertaker in question a plan, section and description of the works to be executed.

(2) Those works are to be executed only in accordance with the plan, section and description submitted under sub-paragraph (1) and in accordance with such reasonable requirements as may be made in accordance with sub-paragraph (3) by the undertaker for the alteration or otherwise for the protection of the apparatus, or for securing access to it, and an officer of the undertaker is entitled to watch and inspect the execution of those works.

(3) Any requirements made by the undertaker under sub-paragraph (2) must be made within a period of 21 days beginning with the date on which a plan, section and description are submitted to it under sub-paragraph (1).

(4) If an undertaker in accordance with sub-paragraph (3) and in consequence of the works proposed by Network Rail, reasonably requires the removal of any apparatus and gives written notice to Network Rail of that requirement, paragraphs 1 to 7 apply as if the removal of the apparatus had been required by Network Rail under paragraph 6(2).

(5) Nothing in this paragraph precludes Network Rail from submitting at any time or from time to time, but in no case less than 28 days before commencing the execution of any works, a new plan, section and description instead of the plan, section and description previously submitted, and having done so the provisions of this paragraph apply to and in respect of the new plan, section and description.

(6) Network Rail is not required to comply with sub-paragraph (1) in a case of emergency but in that case it must give to the undertaker in question notice as soon as is reasonably practicable and a plan, section and description of those works as soon as reasonably practicable subsequently and must comply with sub-paragraph (2) in so far as is reasonably practicable in the circumstances.

9. If in consequence of the exercise of the powers conferred by this Order the access to any apparatus is materially obstructed Network Rail must provide such alternative means of access to such apparatus as will enable the undertaker to maintain or use the apparatus no less effectively than was possible before such obstruction.

10.—(1) Subject to the following provisions of this paragraph, Network Rail must repay to an undertaker the reasonable expenses incurred by that undertaker in, or in connection with, the inspection, removal, alteration or protection of any apparatus or the construction of any new apparatus which may be required in consequence of the execution of any such works as are referred to in paragraph 6(2).

(2) The value of any apparatus removed under the provisions of this Part of this Schedule is to be deducted from any sum payable under sub-paragraph (1), that value being calculated after removal.

(3) If in accordance with the provisions of this Part of this Schedule—

- (a) apparatus of better type, of greater capacity or of greater dimensions is placed in substitution for existing apparatus of worse type, of smaller capacity or of smaller dimensions; or
- (b) apparatus (whether existing apparatus or apparatus substituted for existing apparatus) is placed at a depth greater than the depth at which the existing apparatus was,

and the placing of apparatus of that type or capacity or those dimensions or the placing of apparatus at that depth, as the case may be, is not agreed by Network Rail or, in default of agreement, is not determined by arbitration in accordance with article 52 (arbitration) to be necessary, then, if such placing involves cost in the construction of works under this Part of this Schedule exceeding that which would have been involved if the apparatus placed had been of the existing type, capacity or dimensions, or at the existing depth, as the case may be, the amount which apart from this sub-paragraph would be payable to the undertaker in question by virtue of sub-paragraph (1), is to be reduced by the amount of that excess.

(4) For the purposes of sub-paragraph (3)—

- (a) an extension of apparatus to a length greater than the length of existing apparatus must not be treated as placing of apparatus of greater dimensions than those of the existing apparatus; and
- (b) where the provision of a joint in a cable is agreed, or is determined to be necessary, the consequential provision of a jointing chamber or of a manhole must be treated as if it also had been agreed or had been so determined.

(5) An amount which apart from this sub-paragraph would be payable to an undertaker in respect of works by virtue of sub-paragraph (1) must, if the works include the placing of apparatus provided in substitution for apparatus placed more than 7 years and 6 months earlier so as to confer on the undertaker any financial benefit by deferment of the time for renewal of the apparatus in the ordinary course, be reduced by the amount which represents that benefit.

(6) Any dispute as to whether a financial benefit is conferred in accordance with sub-paragraph (5) or as to the amount of such financial benefit which cannot be agreed is to be determined in accordance with article 52 (arbitration).

11.—(1) Subject to sub-paragraphs (2) and (3), if by reason or in consequence of the construction of any of the works referred to in paragraph 6(2), any damage is caused to any apparatus (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of those works) or property of an undertaker, or there is any interruption in any service provided, or in the supply of any goods, by any undertaker, Network Rail must—

- (a) bear and pay the cost reasonably incurred by that undertaker in making good such damage or restoring the supply; and
- (b) make reasonable compensation to that undertaker for any other expenses, loss, damages, penalty or costs incurred by the undertaker,

by reason or in consequence of any such damage or interruption.

(2) Nothing in sub-paragraph (1) imposes any liability on Network Rail with respect to any damage or interruption to the extent that it is attributable to the act, neglect or default of an undertaker, its officers, servants, contractors or agents.

(3) An undertaker must give Network Rail reasonable notice of any such claim or demand and no settlement or compromise is to be made without the consent of Network Rail, which, if it withholds such consent, has the sole conduct of any settlement or compromise or of any proceedings necessary to resist the claim or demand.

12. Nothing in this Part of this Schedule affects the provision of any enactment or agreement regulating the relations between Network Rail and an undertaker in respect of any apparatus laid or erected in land belonging to Network Rail on the date on which this Order is made.

PART 2

FOR THE PROTECTION OF OPERATORS OF ELECTRONIC COMMUNICATIONS CODE NETWORKS

13.—(1) For the protection of any operator, the following provisions have effect, unless otherwise agreed in writing between Network Rail and the operator.

(2) In this Part of this Schedule—

“electronic communications apparatus” has the same meaning as in the electronic communications code;

“the electronic communications code” has the same meaning as in Chapter 1 of Part 2 of the 2003 Act^(a);

“electronic communications code network” means—

(a) so much of an electronic communications network or infrastructure system provided by an electronic communications code operator as is not excluded from the application of the electronic communications code by a direction under section 106 of the 2003 Act; and

(b) an electronic communications network which the Secretary of State is providing or proposing to provide;

“electronic communications code operator” means a person in whose case the electronic communications code is applied by a direction under section 106 of the 2003 Act;

“infrastructure system” has the same meaning as in the electronic communications code and references to providing an infrastructure system are to be construed in accordance with paragraph 7(2) of that code; and

“operator” means the operator of an electronic communications code network.

14.—(1) Subject to sub-paragraphs (2) to (4), if as the result of the authorised works or their construction, or of any subsidence resulting from any of those works—

(a) any damage is caused to any electronic communications apparatus belonging to an operator (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of those works), or other property of an operator; or

(b) there is any interruption in the supply of the service provided by an operator,

Network Rail must bear and pay the cost reasonably incurred by an operator in making good such damage or restoring the supply and must—

(a) make reasonable compensation to that operator for loss sustained by it; and

(b) indemnify that operator against claims, demands, proceedings, costs, damages and expenses which may be made or taken against, or recovered from, or incurred by, that operator by reason, or in consequence of, any such damage or interruption.

(2) Nothing in sub-paragraph (1) imposes any liability on Network Rail with respect to any damage or interruption to the extent that it is attributable to the act, neglect or default of an operator, its officers, servants, contractors or agents.

^(a) See section 106.

(3) The operator must give Network Rail reasonable notice of any such claim or demand and no settlement or compromise of the claim or demand is to be made without the consent of Network Rail which, if it withholds such consent, has the sole conduct of any settlement or compromise or of any proceedings necessary to resist the claim or demand.

(4) Any difference arising between Network Rail and the operator under this Schedule must be referred to and settled by arbitration under article 52 (arbitration).

15. This Part of this Schedule does not apply to—

- (a) any apparatus in respect of which the relations between Network Rail and an operator are regulated by the provisions of Part 3 of the 1991 Act; or
- (b) any damage, or any interruption, caused by electro-magnetic interference arising from the construction or use of the authorised works.

16. Nothing in this Part of this Schedule affects the provisions of any enactment or agreement regulating the relations between Network Rail and an operator in respect of any apparatus laid or erected in land belonging to Network Rail on the date on which this Order is made.

PART 3

FOR THE PROTECTION OF LEAD LOCAL FLOOD AUTHORITIES

17.—(1) The following provisions of this Part of this Schedule apply for the protection of the lead local flood authority unless otherwise agreed in writing between Network Rail and the lead local flood authority.

(2) In this Part of this Schedule—

“construction” includes execution, placing, altering, replacing, relaying and removal and “construct” and “constructed” are to be construed accordingly;

“drainage work” means any watercourse and includes any land which provides or is expected to provide flood storage capacity for any ordinary watercourse and any bank, wall, embankment or other structure, or any appliance, constructed or used for land drainage or flood defence;

“lead local flood authority” means in relation to an ordinary watercourse the lead local flood authority concerned within the meaning of section 23 of the Land Drainage Act 1991(a);

“ordinary watercourse” has the meaning given by the Land Drainage Act 1991;

“plans” includes sections, drawings, specifications and method statements; and

“specified work” means so much of any work or operation authorised by this Order as is in, on, under, over or within 16 metres of a drainage work or is otherwise likely to affect any drainage work.

18.—(1) Before beginning to construct any specified work, Network Rail must submit to the lead local flood authority plans of the specified work and such further particulars available to it as the lead local flood authority may within 28 days of the submission of the plans reasonably require.

(2) Any such specified work must not be constructed except in accordance with such plans as may be approved in writing by the lead local flood authority, or determined under paragraph 38.

(3) Any approval of the lead local flood authority required under this paragraph—

- (a) must not be unreasonably withheld or delayed;

(a) 1991 c. 59. Section 23 was amended by section 120 of, and paragraph 192 of Schedule 22 to, the Environment Act 1995 (c. 25), paragraphs 25 and 32 of Schedule 2 to the Flood and Water Management Act 2010 (c. 29) and S.I. 2013/755.

- (b) is deemed to have been given if it is neither given nor refused within 2 months of the submission of the plans for approval and, in the case of a refusal, accompanied by a statement of the grounds of refusal; and
- (c) may be given subject to such reasonable requirements as the lead local flood authority may make for the protection of any drainage work.

(4) The lead local flood authority must use its reasonable endeavours to respond to the submission of any plans before the expiration of the period mentioned in sub-paragraph (3)(b).

19. Without limitation on the scope of paragraph 18, the requirements which the lead local flood authority may make under that paragraph include conditions requiring Network Rail at its own expense to construct such protective works, whether temporary or permanent, during the construction of the specified works (including the provision of flood banks, walls or embankments or other new works and the strengthening, repair or renewal of existing banks, walls or embankments) as are reasonably necessary—

- (a) to safeguard any drainage work against damage; or
- (b) to secure that its efficiency for flood defence purposes is not impaired and that the risk of flooding is not otherwise increased,

by reason of any specified work.

20.—(1) Subject to sub-paragraph (2), any specified work, and all protective works required by the lead local flood authority under paragraph 19, must be constructed—

- (a) without unreasonable delay in accordance with the plans approved or deemed to have been approved or settled under this Part of this Schedule; and
- (b) to the reasonable satisfaction of the lead local flood authority,

and an officer of the lead local flood authority is entitled to watch and inspect the construction of such works.

(2) Network Rail must give to the lead local flood authority not less than 14 days' notice in writing of its intention to commence construction of any specified work and notice in writing of its completion not later than 7 days after the date on which it is brought into use.

(3) If any part of a specified work or any protective work required by the lead local flood authority is constructed otherwise than in accordance with the requirements of this Part of this Schedule, the lead local flood authority may by notice in writing require Network Rail at Network Rail's own expense to comply with the requirements of this Part of this Schedule.

(4) Subject to sub-paragraph (5), if within a reasonable period, being not less than 28 days from the date when a notice under sub-paragraph (3) is served upon Network Rail, it has failed to begin taking steps to comply with the requirements of the notice and subsequently to make reasonably expeditious progress towards their implementation, the lead local flood authority may execute the works specified in the notice and any expenditure incurred by it in so doing is recoverable from Network Rail.

(5) In the event of any dispute as to whether sub-paragraph (3) is properly applicable to any work in respect of which notice has been served under that sub-paragraph, or as to the reasonableness of any requirement of such a notice, the lead local flood authority must not except in emergency exercise the powers conferred by sub-paragraph (4) until the dispute has been finally determined.

21.—(1) Subject to sub-paragraph (3) Network Rail must from the commencement of the construction of the specified works maintain in good repair and condition and free from obstruction any drainage work which is situated within the limits of deviation or on land held by Network Rail for the purposes of or in connection with the specified works, whether or not the drainage work is constructed under the powers conferred by this Order or is already in existence.

(2) If any such drainage work which Network Rail is liable to maintain is not maintained to the reasonable satisfaction of the lead local flood authority, the lead local flood authority may by notice in writing require Network Rail to repair and restore the work, or any part of such work, or (if Network Rail so elects and the lead local flood authority in writing consents, such consent not

to be unreasonably withheld or delayed), to remove the work and restore the site to its former condition, to such extent and within such limits as the lead local flood authority reasonably requires.

(3) This paragraph does not apply to—

- (a) drainage works which are vested in the lead local flood authority, or which the lead local flood authority or another person is liable to maintain and is not precluded by the powers of the Order from doing so; or
- (b) any obstruction of a drainage work for the purposes of a work or operation authorised by this Order and carried out in accordance with the provisions of this Part of this Schedule.

22. If by reason of the construction of any specified work or of the failure of any such work the efficiency of any drainage work for flood defence purposes is impaired, or that drainage work is otherwise damaged, such impairment or damage must be made good by Network Rail to the reasonable satisfaction of the lead local flood authority and if Network Rail fails to do so, the lead local flood authority may make good the impairment or damage and recover from Network Rail the expense reasonably incurred by it in so doing.

23.—(1) Network Rail must pay all costs, charges and expenses which the lead local flood authority may reasonably incur or have to pay—

- (a) in the examination or approval of plans under this Part of this Schedule; and
- (b) in the inspection of the construction of the specified works or any protective works required by the lead local flood authority under this Part of this Schedule.

24. The fact that any work or thing has been executed or done by Network Rail in accordance with a plan approved or deemed to be approved by the lead local flood authority, or to its satisfaction, or in accordance with any directions or award of an arbitrator, does not relieve Network Rail from any liability under the provisions of this Part of this Schedule.

25. Any dispute arising between Network Rail and the lead local flood authority under this Part of this Schedule, if the parties agree, is to be determined by arbitration under article 52 (arbitration).

PART 4

FOR THE PROTECTION OF NORTHERN POWERGRID

26. For the protection of Northern Powergrid the following provisions have effect, unless otherwise agreed in writing between Network Rail and Northern Powergrid.

27. In this part of this Schedule—

“the 1991 Act” means the New Roads and Street Works Act 1991;

“alternative apparatus” means alternative apparatus adequate to enable Northern Powergrid to fulfil its statutory functions in a manner not less efficient than previously;

“apparatus” means electric lines or electrical plant (as defined in the Electricity Act 1989), belonging to or maintained by Northern Powergrid and includes any structure in which apparatus is or is to be lodged or which will give or gives access to apparatus;

“functions” includes powers and duties;

“in”, in a context referring to apparatus or alternative apparatus in land, includes a reference to apparatus or alternative apparatus under, over or upon land; and

“Northern Powergrid” means Northern Powergrid (Yorkshire) Plc (Company No. 04112320) whose registered office is at Lloyds Court, 78 Grey Street, Newcastle-Upon-Tyne, NE1 6AF (“Northern Powergrid”).

28. This Part of this Schedule does not apply to apparatus in respect of which the relations between Network Rail and Northern Powergrid are regulated by the provisions of Part 3 (street works in England and Wales) of the 1991 Act.

Apparatus in stopped up highways

29.—(1) Where a street is stopped up under article 10 (stopping up of streets) or article 17 (replacement and closure of level crossings) if Northern Powergrid has any apparatus in that street or accessed via that street Northern Powergrid is entitled to the same rights in respect of that apparatus as it enjoyed immediately before the stopping up, subject to the provisions of this paragraph, as if this Order had not been made.

(2) Regardless of the temporary stopping up streets under the powers conferred by article 12 (temporary stopping up and diversion of streets), Northern Powergrid is entitled at all times to take all necessary access across any such street and to execute and do all such works and things in, upon or under any such street as may be reasonably necessary or desirable to enable it to maintain any apparatus which at the time of the stopping up or diversion was in that street.

Acquisition of land

30.—(1) Regardless of any provision in this Order or anything shown on the land plans, Network Rail must not acquire any apparatus or land owned by Northern Powergrid or override any easement used by Northern Powergrid otherwise than by agreement with Northern Powergrid, such agreement not to be unreasonably withheld or delayed.

(2) Network Rail must not in the exercise of the powers conferred by this Order prevent pedestrian or vehicular access to any Northern Powergrid property or apparatus, unless preventing such access is with the consent of Northern Powergrid.

(3) Network Rail must not under the powers of this Order acquire or use or acquire new rights over any Northern Powergrid property, or extinguish any existing rights of Northern Powergrid in respect of any third party property, except with the consent of Northern Powergrid.

(4) Where Northern Powergrid is asked to give its consent pursuant to this paragraph, such consent must not be unreasonably withheld or delayed but may be given subject to reasonable conditions.

Removal of apparatus

31.—(1) If, in the exercise of the powers conferred by this Order, Network Rail acquires any interest in any land in which any apparatus is placed or over which access to any apparatus is enjoyed or requires that Northern Powergrid's apparatus is relocated or diverted, that apparatus must not be removed under this Part, and any right of Northern Powergrid to maintain that apparatus in that land and to gain access to it must not be extinguished, until alternative apparatus has been constructed and is in operation, and access to it has been provided, to the reasonable satisfaction of Northern Powergrid in accordance with sub-paragraphs (2) to (7).

(2) If, for the purpose of constructing any works in, on or under any land purchased, held, appropriated or used under this Order, Network Rail requires the removal of any apparatus placed in that land, Network Rail must give to Northern Powergrid 56 days advance written notice of that requirement, together with a plan and section of the work proposed, and of the proposed position of the alternative apparatus to be provided or constructed and in that case (or if in consequence of the exercise of any of the powers conferred by this Order Northern Powergrid reasonably needs to remove any of its apparatus) Network Rail must, subject to sub-paragraph (3), afford to Northern Powergrid the necessary facilities and rights for the construction of alternative apparatus in other land of Network Rail and subsequently for the maintenance of that apparatus.

(3) If alternative apparatus or any part of such apparatus is to be constructed elsewhere than in other land of Network Rail, or Network Rail is unable to afford such facilities and rights as are mentioned in sub-paragraph (2), in the land in which the alternative apparatus or part of such apparatus is to be constructed:

- (a) Network Rail must in the first instance use all reasonable endeavours to acquire all necessary land interests or rights as Northern Powergrid may reasonably require for the relocation and construction of alternative apparatus and must use reasonable endeavours

to procure all necessary rights to access and maintain Northern Powergrid's apparatus and alternative apparatus thereafter the terms of such access and maintenance to be agreed by Northern Powergrid (acting reasonably); and

- (b) in the event Network Rail is not able to procure the necessary land interests or rights referred to in sub-paragraph 3(a) Northern Powergrid must, on receipt of a written notice to that effect from Network Rail, as soon as reasonably possible use reasonable endeavours to obtain the necessary facilities and rights in the land in which the alternative apparatus is to be constructed save that this obligation shall not extend to the requirement for Northern Powergrid to use its compulsory purchase powers to this end unless it elects to do so.

(4) Any alternative apparatus to be constructed in land of Network Rail under this Part of this Schedule must be constructed in such manner and in such line or situation as may be agreed between Northern Powergrid and Network Rail or in default of agreement settled by arbitration in accordance with article 52 (arbitration).

(5) Northern Powergrid must, after the alternative apparatus to be provided or constructed has been agreed or settled by arbitration in accordance with article 52 (arbitration), and after the grant to Northern Powergrid of any such facilities and rights as are referred to in subparagraph (2) or (3), proceed without unnecessary delay to construct and bring into operation the alternative apparatus and subsequently to remove any apparatus required by Network Rail to be removed under the provisions of this Part of this Schedule.

(6) Regardless of anything in sub-paragraph (5), if Network Rail gives notice in writing to Northern Powergrid that it desires itself to execute any work, or part of any work, in connection with the construction or removal of apparatus in any land controlled by Network Rail, that work, instead of being executed by Northern Powergrid, may be executed Network Rail or a contractor of Network Rail approved by Northern Powergrid but only with the prior written consent of Northern Powergrid (which must not be unreasonably withheld or delayed and subject to any such conditions as are reasonable and proper to protect the apparatus and ensure compliance with Northern Powergrid's licence conditions) in accordance with plans and in a position agreed between Northern Powergrid and Network Rail or, in default of agreement, determined by arbitration in accordance with article 52 (arbitration), without unnecessary delay under the superintendence, if given, and to the reasonable satisfaction of Northern Powergrid.

(7) Nothing in sub-paragraph (6) authorises Network Rail to execute the placing, installation, bedding, packing, removal, connection or disconnection of any apparatus, or execute any filling around the apparatus (where the apparatus is laid in a trench) within 3000 millimetres of the apparatus unless otherwise agreed with Northern Powergrid..

Facilities and rights for alternative apparatus

32.—(1) Where, in accordance with the provisions of this Part of this Schedule, Network Rail affords to Northern Powergrid facilities and rights for the construction and maintenance in land of Network Rail of alternative apparatus in substitution for apparatus to be removed, those facilities and rights must be granted upon such terms and conditions as may be agreed between Network Rail and Northern Powergrid or in default of agreement settled by arbitration in accordance with article 52 (arbitration).

(2) If the facilities and rights to be afforded by Network Rail in respect of any alternative apparatus, and the terms and conditions subject to which those facilities and rights are to be granted, are in the opinion of the arbitrator less favourable on the whole to Northern Powergrid than the facilities and rights enjoyed by it in respect of the apparatus to be removed and the terms and conditions to which those facilities and rights are subject, the arbitrator must make such provision for the payment of compensation by Network Rail to Northern Powergrid as appears to the arbitrator to be reasonable having regard to all the circumstances of the particular case.

Retained apparatus

33.—(1) Not less than 42 days before starting the execution of any works in, on or under any land purchased, held, appropriated or used under this Order that are near to, or will or may affect, any apparatus the removal of which has not been required by Network Rail under paragraph 44(2),

Network Rail must submit to Northern Powergrid a plan, section and description of the works to be executed.

(2) Those works must be executed only in accordance with the plan, section and description submitted under sub-paragraph 8(1) and in accordance with such reasonable requirements as may be made in accordance with sub-paragraph 33(3) by Northern Powergrid for the alteration or otherwise for the protection of the apparatus, or for securing access to it, and Northern Powergrid is entitled to watch and inspect the execution of those works.

(3) Any requirements made by Northern Powergrid under sub-paragraph 33(3) must be made within a period of 42 days beginning with the date on which a plan, section and description under sub-paragraph 33(1) are submitted to it.

(4) If Northern Powergrid in accordance with sub-paragraph 46(3) and in consequence of the works proposed by Network Rail, reasonably requires the removal of any apparatus and gives written notice to Network Rail of that requirement, paragraphs 31 to 32 apply as if the removal of the apparatus had been required by Network Rail under paragraph 31(2).

(5) Nothing in this paragraph precludes Network Rail from submitting at any time or from time to time, but in no case less than 35 days before commencing the execution of any works, a new plan, section and description instead of the plan, section and description previously submitted, and having done so the provisions of this paragraph apply to and in respect of the new plan, section and description.

(6) Network Rail is not required to comply with sub-paragraph 33(1) in a case of emergency but in that case it must give to Northern Powergrid notice as soon as is reasonably practicable and a plan, section and description of those works as soon as reasonably practicable subsequently and must comply with sub-paragraph 33(2) in so far as is reasonably practicable in the circumstances.

Expenses and costs

34.—(1) Subject to the following provisions of this paragraph, Network Rail must pay to Northern Powergrid an amount equal to the cost reasonably incurred by Northern Powergrid—

- (a) in, or in connection with, the inspection, removal, alteration or protection of any apparatus or the construction of any new apparatus which may be required in consequence of the execution of any such works as are referred to in paragraph 6(2); and
- (b) in assessing and preparing a design for its apparatus to address and accommodate the proposals of Network Rail whether or not Network Rail proceeds to implement those proposals or alternative or none at all,

provided that if it so prefers Northern Powergrid may abandon apparatus that Network Rail does not seek to remove in accordance with paragraph 31(2) having first decommissioned such apparatus.

(2) There is to be deducted from any sum payable under sub-paragraph (1) the value of any apparatus removed under the provisions of this Part of this Schedule, that value being calculated after removal and, if the apparatus removed under the provisions of this Part of this Schedule has no value, no sum is to be deducted from the amount payable under sub-paragraph (1).

(3) If in accordance with the provisions of this Part of this Schedule)—

- (a) apparatus of better type, of greater capacity or of greater dimension is placed in substitution for existing apparatus of worse type, of smaller capacity or of smaller dimension; or
- (b) apparatus (whether existing apparatus or apparatus substituted for existing apparatus) is placed at a depth greater than the depth at which the existing apparatus was,

and the placing of apparatus of that type or capacity or of those dimensions or the placing of apparatus at that depth, as the case may be, is not agreed by Network Rail, or, in default of agreement, is not determined by arbitration (pursuant to article 52 (arbitration)) to be necessary, then, if it involves cost in the execution of works exceeding that which would have been involved if the apparatus placed had been of the existing type, capacity or dimensions, or at the existing depth, as the case may be, the amount which apart from this paragraph would be payable to Northern Powergrid by virtue of sub-paragraph (3) is to be reduced by the amount of that excess

save where it is not possible in the circumstances to obtain the existing type, capacity, or dimensions of apparatus, or to place the apparatus at the existing depth, in which case full costs shall be borne by Network Rail.

(4) For the purposes of sub-paragraph (3)—

- (a) an extension of apparatus to a length greater than the length of existing apparatus is not to be treated as a placing of apparatus of greater dimensions than those of the existing apparatus; and
- (b) where the provision of a joint in a cable is agreed, or is determined to be necessary, the consequential provision of a jointing chamber or of a manhole is to be treated as if it also had been agreed or had been so determined.

Indemnity

35.—(1) Subject to sub-paragraphs (2) and (3), if by reason or in consequence of the construction of any of the works referred to in this Order, or in consequence of the construction, use, maintenance or failure of any of the authorised development by or on behalf of Network Rail or in consequence of any act or default of Network Rail (or any person employed or authorised by it) in the course of carrying out such works, including without limitation works carried out by Network Rail under this Schedule any damage is caused to any apparatus or alternative apparatus (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of those works) or property of Northern Powergrid, or there is any interruption in any service provided by Northern Powergrid, or as a consequence Northern Powergrid becomes liable to pay any amount to a third party Network Rail must—

- (a) bear and pay the cost reasonably incurred by Northern Powergrid in making good such damage or restoring the supply; and

(2) Nothing in sub-paragraph (1) imposes any liability on Network Rail with respect to any damage or interruption to the extent that it is attributable to the act, neglect or default of Northern Powergrid, its officers, servants, contractors or agents, and nor does sub-paragraph (1) impose any liability on Network Rail in respect of consequential losses.

(4) Northern Powergrid must use its reasonable endeavours to mitigate in whole or in part and to minimise any costs, expenses, loss, demands and penalties to which the indemnity under sub-paragraph (1) applies. If requested to do so by Network Rail, Northern Powergrid must provide an explanation of how the claim has been minimised. Network Rail is only liable under sub-paragraph (1) for claim reasonably incurred by Northern Powergrid.

Where in consequence of the proposed construction of any of the authorised development, Network Rail or Northern Powergrid requires the removal of apparatus or Northern Powergrid makes requirements for the protection or alteration of apparatus, Network Rail shall use its reasonable endeavours to co-ordinate the execution of the works in the interests of safety and the need to ensure the safe and efficient operation of Northern Powergrid's undertaking taking into account the Network Rail's desire for the efficient and economic execution of the authorised development and Network Rail and Northern Powergrid shall use reasonable endeavours to co-operate with each other for those purposes.

Access

37. If in consequence of the powers conferred by this Order the access to any apparatus or alternative apparatus is materially obstructed, Network Rail shall provide such alternative means
